

PROCEEDINGS OF SPIE

# **AOPC 2022: Atmospheric and Environmental Optics**

**Jianguo Liu**  
**Liang Xu**  
**Jian Gao**  
*Editors*

**18–19 December 2022**  
**ONLINE, China**

*Sponsored by*  
Chinese Society for Optical Engineering (CSOE) (China)

*Technical Sponsor*  
SPIE

*Organized by*  
Tianjin University (China)  
University of Electronic Science and Technology of China (China)  
Nanjing University of Science and Technology (China)  
Beijing Institute of Space Mechanics and Electricity (China)  
Science and Technology on Low-light-level Night Vision Laboratory (China)  
Science and Technology on Electro-Optical Information Security Control (China)

*Published by*  
SPIE

**Volume 12561**

Proceedings of SPIE 0277-786X, V. 12561

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

AOPC 2022: Atmospheric and Environmental Optics, edited by Jianguo Liu,  
Liang Xu, Jian Gao, Proc. of SPIE Vol. 12561, 1256101 · © 2023  
SPIE · 0277-786X · doi: 10.1117/12.2670365

Proc. of SPIE Vol. 12561 1256101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:  
Author(s), "Title of Paper," in *AOPC 2022: Atmospheric and Environmental Optics*, edited by Janguo Liu, Liang Xu, Jian Gao, Proc. of SPIE 12561, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## ATMOSPHERIC AND ENVIRONMENTAL OPTICS

---

- 12561 02 **Analysis on the correction method of atmospheric transmittance close to the ground** [12561-2]
- 12561 03 **Reducing transmitter's luminous surface with integrated LED arrays for deep-sea wireless optical communication** [12561-5]
- 12561 04 **Lake surface roughness measurements from video images** [12561-6]
- 12561 05 **A review of underwater digital hologram systems** [12561-7]
- 12561 06 **Estimating particulate organic nitrogen concentrations in the surface ocean from ocean color remote sensing data** [12561-9]
- 12561 07 **Underwater ranging with laser and camera based on Mask R-CNN algorithm** [12561-14]
- 12561 08 **The design method of beam splitting based on DOE and its application in 3D imaging Lidar** [12561-15]
- 12561 09 **Design of underwater wireless optical communication and radar integrated system** [12561-17]
- 12561 0A **Study on laser methane remote sensor based on TDLAS** [12561-20]
- 12561 0B **Correlation analysis of multi-angle simultaneous polarization measurements with the concentration of suspended atmospheric particles** [12561-21]
- 12561 0C **Influence of Typhoon Hagibis on chlorophyll-a and temperature in the Northwest Pacific Ocean** [12561-22]
- 12561 0D **Underwater image segmentation based on multi-scale residual attention** [12561-24]
- 12561 0E **Super resolution of underwater image based on generating generative adversarial networks** [12561-25]
- 12561 0F **Multi-scale fusion based super-resolution underwater image segmentation network** [12561-26]

# Conference Committee

## *Conference Chairs*

**Jianguo Liu**, Hefei Institutes of Physical Science, Chinese Academy of Sciences (China)

**Liang Xu**, Anhui Institute of Optics and Fine Mechanics, HFIPA, Chinese Academy of Sciences (China)

**Jian Gao**, Chinese Research Academy of Environment Science, CRAES(China)
