

PROCEEDINGS OF SPIE

Quantum Communications and Quantum Imaging XIV

Ronald E. Meyers
Yanhua Shih
Keith S. Deacon
Editors

28–29 August 2016
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 9980

Proceedings of SPIE 0277-786X, V. 9980

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Quantum Communications and Quantum Imaging XIV, edited by Ronald E. Meyers, Yanhua Shih, Keith S. Deacon
Proc. of SPIE Vol. 9980, 998001 · © 2016 SPIE · CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2260561

Proc. of SPIE Vol. 9980 998001-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Quantum Communications and Quantum Imaging XIV*, edited by Ronald E. Meyers, Yanhua Shih, Keith S. Deacon, Proceedings of SPIE Vol. 9980 (SPIE, Bellingham, WA, 2016) Six-digit Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

QUANTUM COMMUNICATIONS I

9980 05	Quantum enigma cipher as a generalization of the quantum stream cipher (Invited Paper) [9980-4]
9980 06	Design framework for entanglement-distribution switching networks (Invited Paper) [9980-5]

QUANTUM INFORMATION PROCESSING AND TECHNOLOGY I

9980 0A	The photon pair source that survived a rocket explosion (Invited Paper) [9980-8]
9980 0D	Quantum decoherence of a single ion qubit induced by photon-number fluctuations (Invited Paper) [9980-11]

QUANTUM ENTANGLEMENT AND METROLOGY

9980 0F	Improving interferometers by quantum light: toward testing quantum gravity on an optical bench (Invited Paper) [9980-13]
9980 0G	A 3.9 km baseline intensity interferometry photon counting experiment (Invited Paper) [9980-14]
9980 0H	Single-shot adaptive measurement for quantum-enhanced metrology [9980-15]
9980 0I	Exploitation of transverse spatial modes in spontaneous four wave mixing photon-pair sources (Invited Paper) [9980-16]
9980 0J	Quantum optical coherence tomography using three time-energy entangled photons [9980-29]

QUANTUM COMMUNICATIONS II

9980 0L	The utility of entanglement swapping in quantum communications (Invited Paper) [9980-19]
---------	-------------------------------------------------------------------------------------------------

QUANTUM COMMUNICATIONS AND TECHNOLOGY

- 9980 ON **Noise characterization in double-heralded generation of two-photon-states by spontaneous four-wave-mixing** [9980-21]
- 9980 OO **A novel transceiver of the Y-00 quantum stream cipher with the randomization technique for optical communication with higher security performance (Invited Paper)** [9980-22]
- 9980 OQ **Quantization of Gaussian samples at very low SNR regime in continuous variable QKD applications (Invited Paper)** [9980-24]
- 9980 OR **Long-distance quantum-key-distribution using concatenated entanglement swapping with practical resources (Invited Paper)** [9980-25]

POSTER SESSION

- 9980 OT **Two-mode squeezed light source for quantum illumination and quantum imaging II** [9980-27]
- 9980 OU **Free-space quantum key distribution with a high generation rate potassium titanyl phosphate waveguide photon-pair source** [9980-28]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Program Track Chairs

Stephen M. Hammel, Space and Naval Warfare Systems Command
(United States)

Alexander M. J. van Eijk, TNO Defence, Security and Safety
(Netherlands)

Conference Chairs

Ronald E. Meyers, U.S. Army Research Laboratory (United States)

Yanhua Shih, University of Maryland, Baltimore County (United States)

Keith S. Deacon, U.S. Army Research Laboratory (United States)

Conference Program Committee

Stefania A. Castelletto, RMIT University (Australia)

Milena D'Angelo, Università degli Studi di Bari (Italy)

Mark T. Gruneisen, Air Force Research Laboratory (United States)

Richard J. Hughes, Los Alamos National Laboratory (United States)

Yoon-Ho Kim, Pohang University of Science and Technology
(Korea, Republic of)

Todd B. Pittman, University of Maryland, Baltimore County
(United States)

Barry C. Sanders, University of Calgary (Canada)

Alexander V. Sergienko, Boston University (United States)

Dmitry V. Strekalov, Jet Propulsion Laboratory (United States)

Shigeki Takeuchi, Hokkaido University (Japan)

Xiao Tang, National Institute of Standards and Technology
(United States)

Arnold Tunick, U.S. Army Research Laboratory (United States)

Session Chairs

1 Quantum Communications I

Ronald E. Meyers, U.S. Army Research Laboratory (United States)

Yanhua Shih, University of Maryland, Baltimore County (United States)

Keith S. Deacon, U.S. Army Research Laboratory (United States)

2 Quantum Imaging

Ronald E. Meyers, U.S. Army Research Laboratory (United States)

Yanhua Shih, University of Maryland, Baltimore County (United States)

Keith S. Deacon, U.S. Army Research Laboratory (United States)

- 3 Quantum Information Processing and Technology I
Ronald E. Meyers, U.S. Army Research Laboratory (United States)
Yanhua Shih, University of Maryland, Baltimore County (United States)
Keith S. Deacon, U.S. Army Research Laboratory (United States)
- 4 Quantum Entanglement and Metrology
Ronald E. Meyers, U.S. Army Research Laboratory (United States)
Yanhua Shih, University of Maryland, Baltimore County (United States)
Keith S. Deacon, U.S. Army Research Laboratory (United States)
- 5 Quantum Communications II
Ronald E. Meyers, U.S. Army Research Laboratory (United States)
Yanhua Shih, University of Maryland, Baltimore County (United States)
Keith S. Deacon, U.S. Army Research Laboratory (United States)
- 6 Quantum Communications and Technology
Ronald E. Meyers, U.S. Army Research Laboratory (United States)
Yanhua Shih, University of Maryland, Baltimore County (United States)
Keith S. Deacon, U.S. Army Research Laboratory (United States)
