SPIE

Volume 12597

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12597

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Second International Conference on Statistics, Applied Mathematics, and Computing Science
(CSAMCS 2022), edited by Wanyang Dai, Shi Jin, Proc. of SPIE Vol. 12597, 1259701 ·
© 2023 SPIE · 0277-786X · doi: 10.1117/12.2674192

Proc. of SPIE Vol. 12597 1259701-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Second International Conference on Statistics, Applied Mathematics, and Computing Science (CSAMCS 2022)*, edited by Wanyang Dai, Shi Jin, Proc. of SPIE 12597, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xiii *Conference Committee*

Part One

APPLIED MATHEMATICS AND LINEAR REGRESSION ANALYSIS

- 12597 02 **Empirical analysis of air quality in China based on multiple linear regression analysis** [12597-16]
- 12597 03 **Mathematical model on equivalent thermal conductivity coefficient of foamed concrete** [12597-52]
- 12597 04 **CSmodel: analysis, forecasting and evaluation of forest management plans** [12597-53]
- 12597 05 **An empirical study on coach abuse supervision and athlete performance: quantitative analysis based on multiple linear regression model** [12597-72]
- 12597 06 **An analysis of the relationship between one-minute rope skipping performance and cultural performance of primary school students based on linear regression model** [12597-45]
- 12597 07 **Construction and testing of a model of self-efficacy and physical activity for mental health in adolescents based on AMOS technology** [12597-26]
- 12597 08 **Analysis of college students' social anxiety and fitness APP based on structural equation model in information age** [12597-29]
- 12597 09 **Research on data usability measurement of scientometrics research based on keyword analysis** [12597-2]
- 12597 0A **Prediction of online and offline academic performance of college students based on partial least squares regression analysis** [12597-19]
- 12597 0B **Complex analysis and residue theorem** [12597-126]
- 12597 0C **Study on perceived neighborhood security and its influence factors with structural equation modeling: a comparison between China and the United States** [12597-101]
- 12597 0D **A meta-analysis of relationship between self-efficacy and mathematical academic achievement among primary and secondary school students in China** [12597-113]
- 12597 0E **Stability of the classical explicit scheme and the Crank-Nicolson scheme for parabolic equations** [12597-174]
- 12597 0F **Application of Fourier analysis to implementation of spectral collocation methods to solve partial differential equation** [12597-146]

- 12597 OG **Estimation of the parameter for compound Rayleigh distribution based on left truncated and right censored data** [12597-79]
- 12597 OH **Visualization of subcooled flow boiling by simulation** [12597-163]
- 12597 OI **On the minimum eigenvalue of the fan product** [12597-81]
- 12597 OJ **An efficient method for solving non-negative Sylvester matrix equations** [12597-102]
- 12597 OK **Zeta functions with operator values** [12597-154]
- 12597 OL **The impact of Fourier series: the discussion over Riemann integrable functions, Dirichlet kernel, and good kernel** [12597-158]
- 12597 OM **Raisin classification based on XGBoost, SVM, MLP and logistic regression** [12597-140]
- 12597 ON **Application of residue theorem in mathematics** [12597-130]
- 12597 OO **An adaptive method for solving differential equations** [12597-74]
- 12597 OP **Study on probability evaluation method of aircraft overshoot runway based on logistic regression** [12597-172]
- 12597 OQ **Analysis of the relationship between surface weathering of glass cultural relics and glass types, ornamentation and color** [12597-69]
- 12597 OR **Numerical investigation of departure size in subcooled flow boiling** [12597-169]
- 12597 OS **Research on progress of subcooled flow boiling simulation based on CFD** [12597-165]
- 12597 OT **Derivation of conserved quantities for one dimensional nonlinear damped wave equation** [12597-153]
- 12597 OU **An mADMM-PDAS method for elliptic optimal control problems** [12597-90]
- 12597 OV **Jackknife empirical likelihood for the Gini index with right censored observations** [12597-89]
- 12597 OW **Stability analysis of alternate implicit schemes for 2-D second-order hyperbolic equations** [12597-106]
- 12597 OX **Convex programming: the minimum covering circle case** [12597-150]
- 12597 OY **Existence of solutions to boundary value problems for a class of infinite point fractional q-difference equations** [12597-78]
- 12597 OZ **Extension and application of residue theorem** [12597-132]

- 12597 10 **On the approximate solutions to a damped harmonic oscillator with higher-order nonlinearities on a rough plane** [12597-137]
- 12597 11 **Minimum strong radius of the strong product of paths** [12597-58]

INFORMATION ECONOMY STATISTICS AND ECONOMIC FORECASTING

- 12597 12 **Dynamics of an economic model of the electric power duopoly game** [12597-3]
- 12597 13 **Data analysis and prediction of disposable income of urban population based on time series analysis method** [12597-4]
- 12597 14 **WLS estimator for right censored linear model with continuous auxiliary information** [12597-156]
- 12597 15 **The impact of carbon emissions on green total factor productivity: an empirical analysis based on Chinese provincial panel data** [12597-5]
- 12597 16 **Research on risk control model of internet financial based on data envelopment analysis** [12597-24]
- 12597 17 **A 2D stochastic model of alien species invasion and spatial simulations** [12597-75]
- 12597 18 **Exploring CO₂ emission in developing countries by PCA and time series analysis** [12597-129]
- 12597 19 **Demand forecasting in SCM for automobile industry based on time-series modeling** [12597-125]
- 12597 1A **An empirical study on the prediction of accountability and transparency score of charities: based on binary logistic regression model** [12597-139]
- 12597 1B **Mathematical programming applications in finance** [12597-173]
- 12597 1C **On the modifications of simplex method** [12597-131]
- 12597 1D **Research on influencing factors of birth rate in China** [12597-124]
- 12597 1E **An empirical study on spatial measurement and regional heterogeneity of total factor carbon emission reduction efficiency (TFR)** [12597-91]

MULTIVARIATE STATISTICAL ANALYSIS AND LOGICAL DECISION MAKING

- 12597 1F **Forest management decision model** [12597-6]
- 12597 1G **The influence of sports app on college students' physical exercise attitude and physical quality based on data analysis** [12597-20]

- 12597 1H **Statistical analysis and study between ankle mobility and basic movements in FMS test** [12597-21]
- 12597 1I **Construction of the winning factor evaluation system of national sports college men's basketball league based on analytic hierarchy process** [12597-28]
- 12597 1J **Digital assessment of the skill acquisition of table tennis after functional movement training** [12597-50]
- 12597 1K **Visual analysis of international football research based on WOS** [12597-11]
- 12597 1L **Research on the physical health changes of college students during the new crown epidemic based on big data analysis technology** [12597-41]
- 12597 1M **Statistical analysis of FMS test results for young male cadets in a military academy** [12597-18]
- 12597 1N **Application of data analysis in exercise-related skeletal muscle research** [12597-68]
- 12597 1O **Study on physical activity and health intervention for sedentary people in built environment** [12597-49]
- 12597 1P **Frontier analysis of sports event research in China based on quantitative statistical analysis** [12597-40]
- 12597 1Q **Measuring sports teaching activities in higher education through natural language processing** [12597-57]
- 12597 1R **Statistical analysis for the influencing factors on average score of players in football matches** [12597-14]
- 12597 1S **Data statistics of tennis visual assisted training device is based on data analysis of SPSS software** [12597-12]
- 12597 1T **Research on the evaluation of special quality characteristics of excellent youth female volleyball athletes in China combined with data analysis and statistics** [12597-54]
- 12597 1U **A visual statistical analysis of basketball teaching research hotspots in China** [12597-13]
- 12597 1V **Match performance statistics related to winning of Chinese super league under different match stages** [12597-15]
- 12597 1W **Data analysis and statistics of Chinese men's 100m performance development prediction in recent 20 years based on SPSS software** [12597-43]
- 12597 1X **Research on changes in physical measurement data of ordinary high school students during the COVID-19 pandemic based on big data analysis technology** [12597-35]
- 12597 1Y **Analysis on the application of data volley computer statistical data analysis system in volleyball competition: a case study of 2020-2021 Chinese women's volleyball super league** [12597-32]

- 12597 1Z **The research of Shaolin Wushu in China: data analysis based on Citespace V** [12597-23]
- 12597 20 **Correlation analysis between functional training and flexibility of college students based on functional movement screen test** [12597-38]
- 12597 21 **Intervention effect of online and offline blended physical teaching on college students' physical exercise attitude** [12597-17]
- 12597 22 **A state of the art analysis of hotspots in sport governance research from a co-word network perspective based on the bibliographic co-occurrence analysis system software BICOMB** [12597-55]
- 12597 23 **Research on statistical sampling models and plans based on OIIML R87 for prepackages inspection** [12597-84]
- 12597 24 **Paired T test-based analyses for the effects of video-guided Tai Chi training on balance and cognitive function of older adults** [12597-34]
- 12597 25 **A novel method of Chinese text content analysis and mining based on statistical models** [12597-111]
- 12597 26 **Research on income inequality and income flow based on mathematical statistics model** [12597-178]

MOBILE DATA ANALYSIS AND MODEL FITTING

- 12597 27 **Using GARCH family models estimate the volatility of SSE 50ETF** [12597-37]
- 12597 28 **The research of low carbon logistics efficiency and intelligent development based on data analysis** [12597-8]
- 12597 29 **Study on cost of 10 kV distribution network based on explanatory structure model and grey correlation analysis** [12597-187]

Part Two

- 12597 2A **Knowledge mapping in the field of international exercise prescription: research hotspots and development trends visual analysis based on Cite Space** [12597-70]
- 12597 2B **Visual analysis of Chinese competitive gymnastics study from 1998 to 2021 based on Citespace** [12597-36]
- 12597 2C **Analysis of China's breaststroke research based on graphic model and metrology** [12597-27]
- 12597 2D **Based on computer software analysis of Chenzhou rural primary and secondary school extracurricular physical exercise status investigation and influence analysis** [12597-25]
- 12597 2E **Internet of things model for martial arts training based on big data** [12597-83]

- 12597 2F **Study on the importance of computer big data to volleyball match: taking the data analysis and application of women's volleyball video challenge of 2020 Tokyo Olympics as an example** [12597-31]
- 12597 2G **Design and implementation of a computer model-based material management system for sports schools** [12597-66]
- 12597 2H **Research on the influence of technology innovation, consumption innovation on foreign trade upgrading based on VAR model** [12597-171]
- 12597 2I **Performance evaluation of power technology R&D project based on analytic network process** [12597-119]
- 12597 2J **Research on supplier selection based on AHP-TOPICS model** [12597-114]
- 12597 2K **The application of PageRank model in urban epidemic prevention and control** [12597-65]
- 12597 2L **A comprehensive competitiveness evaluation model for higher vocational colleges based on factor analysis and K-means method** [12597-77]
- 12597 2M **Comparison of different individual credit risk assessment models** [12597-120]
- 12597 2N **Design and improvement of asynchronous FIFO Based on Verilog HDL** [12597-127]
- 12597 2O **Design and optimization of asynchronous FIFO based on Verilog HDL** [12597-138]
- 12597 2P **Telecom customer churn prediction in context of composite model** [12597-155]
- 12597 2Q **Design of UART interface based on FPGA** [12597-123]
- 12597 2R **The impact of communication equipment and monitoring systems to the safety of train operations** [12597-157]
- 12597 2S **FIFO design based on verilog HDL** [12597-144]
- 12597 2T **The internal mechanism of equity incentives affecting the firm's market capitalization: based on the mediating effect test model** [12597-170]
- 12597 2U **Comparing recurrent neural network with GARCH model on forecasting volatility based on SSE 50ETF** [12597-184]
- 12597 2V **A recursive formula for computing the normal forms of difference systems** [12597-94]
- 12597 2W **Water resources allocation based on improved goal programming model and bankruptcy theory** [12597-59]
- 12597 2X **Verilog implementation of configurable UART module** [12597-143]

- 12597 2Y **Directed RIIM: finding communities in directed networks** [12597-67]
- 12597 2Z **Harmonic analysis in tide analysis** [12597-134]
- 12597 30 **Some results on asymptotically regular self-mappings** [12597-105]
- 12597 31 **Multi-variate prediction model in infectivity of AIDs and HIV** [12597-136]
- 12597 32 **Monte-carlo method for substation seismic risk assessment** [12597-110]
- 12597 33 **b-coloring and b-edge coloring of mesh graphs and their related graphs** [12597-64]

INTELLIGENT COMPUTING AND NETWORK PATTERN RECOGNITION

- 12597 34 **Analysis of online and offline mixed teaching mode of table tennis based on Pearson correlation method** [12597-39]
- 12597 35 **Research on college students' intention to use online learning platform for sports: based on statistical analysis** [12597-10]
- 12597 36 **A deep reinforcement learning framework with generalization performance for the large-scale capacitated vehicle routing problem** [12597-85]
- 12597 37 **Blind source separation of Fast ICA algorithm based on Negentropy and its optimization** [12597-92]
- 12597 38 **Deep learning in online education, a perspective of data modeling and algorithm analysis** [12597-142]
- 12597 39 **Performance evaluation of low carbon logistics in Guangdong-Hong Kong-Macao Greater Bay Area district based on principal component analysis** [12597-115]
- 12597 3A **Spam detection using Catboost integration algorithm** [12597-181]
- 12597 3B **COVID-19 data prediction and visualization in mainland China** [12597-145]
- 12597 3C **Identification of ancient glass artifacts based on FLDA** [12597-109]
- 12597 3D **Regional adjustment model construction for fiscal project expenditure standard: a case study of geological survey project** [12597-87]
- 12597 3E **The CO₂ emission forecasting in Asia in context of time-series and machine learning approaches** [12597-141]
- 12597 3F **Research on corporate social responsibility: a big data analytics using scrapy web crawler mining technique** [12597-86]

- 12597 3G **Error prevention method for main network day-ahead real-time two phase scheduling operation based on optimized association rules** [12597-175]
- 12597 3H **Dictionary learning in convolutional sparse representation** [12597-103]
- 12597 3I **Air pollution prediction in context of supervised machine learning and time series model** [12597-122]
- 12597 3J **Classification of lead-barium glass and high-potassium glass based on K-means ++ clustering and decision tree algorithm: taking the title C of 2022 national mathematical modeling competition for college students as an example** [12597-71]
- 12597 3K **Research on evaluation method of operational applicability of communication equipment based on game theory** [12597-107]
- 12597 3L **Estimating perceptual priority of rural IP visual elements by one-way ANOVA** [12597-63]
- 12597 3M **Parking management system based on Linux online recognition** [12597-112]
- 12597 3N **Compilation of China's e-commerce social accounting matrix** [12597-93]
- 12597 3O **Towards accurate titanic disaster competition via machine learning algorithms** [12597-148]
- 12597 3P **The classification of red wine quality based on machine learning techniques** [12597-133]
- 12597 3Q **Research on emotion analysis of e-commerce product reviews based on deep learning** [12597-73]
- 12597 3R **A survey of convolution** [12597-152]
- 12597 3S **Evolutionary game analysis of crowding risk control strategies during the COVID-19 Pandemic** [12597-80]
- 12597 3T **Improved neural network pruning algorithm based on contrast loss and simulated annealing** [12597-166]
- 12597 3U **Transaction fraud persistence based on graph algorithm** [12597-180]
- 12597 3V **Multi-objective optimization problem based on non-dominated sorting genetic algorithm** [12597-60]
- 12597 3W **An optimal algorithm for an online facility assignment problem with constraint capacities and costs** [12597-98]
- 12597 3X **Integration and optimization of higher mathematics teaching resources based on collaborative filtering algorithm** [12597-118]
- 12597 3Y **Efficient reinforcement learning for reversi AI** [12597-62]

- 12597 3Z **Negative comment recognition model based on lightGBM** [12597-179]
- 12597 40 **Research on system dynamics model of collaborative development of logistics and local GDP based on panel data** [12597-164]
- 12597 41 **Effects of bedtime on college students' executive function in the digital age based on SPSS 26 software and PROCESS 3.3 software** [12597-61]
- 12597 42 **Research on cost evaluation of power transmission and transformation project based on grey correlation and regression analysis** [12597-182]
- 12597 43 **Is there a momentum effect in studying volatility uncertainty based on linear regression?** [12597-100]
- 12597 44 **The correlation characteristics analysis of road freight transport activities and economy in the Yangtze River delta region based on heavy-duty trucks data** [12597-7]
- 12597 45 **Prediction of carbon trading price based on ARIMA-BP-SSALSTM dynamic weighted combination model** [12597-117]
- 12597 46 **Free disposal hull: improvement of efficiency assessment methodology** [12597-186]
- 12597 47 **Anisotropic finite elements for elasticity problem** [12597-88]
- 12597 48 **Simulation optimization of economic benefit model of agricultural industry based on DEA model** [12597-177]
- 12597 49 **Integral equation theory for the tapered wave scattering from an infinite sound hard rough surface** [12597-108]
- 12597 4A **Research on personal loan default prediction based on ISSA-XGBoost** [12597-116]

Conference Committee

Conference General Chairs

Wanyang Dai, Nanjing University (China)

Program Committee

Wangwen Feng, Shanghai Institute of Technology (China)

Yueshan Xiong, National University of Defense Technology (China)

Jichun Li, University of Nevada (United States)

Longsheng Cheng, Nanjing University of Science and Technology (China)

Jinguang Lin, Nanjing Audit University (China)

Hong-Ming Yin, Washington State University (United States)

Paulo Jorge Canas Rodrigues, Federal University of Bahia (Brazil)

Schehrzad Selmane, University of Sciences and Technology Houari Boumediene (Algeria)

Arminda Manuela Andrade Pereira Gonçalves, University of Minho (Portugal)

Technical Program Committee

Romeo Meštrović, University of Montenegro (Montenegro)

Teresa Paula Costa Azinheira Oliveira, Universidade Aberta (Portugal)

Ilhame Amiraliyeva, Düzce Üniversitesi (Turkey)

Huaiping Zhu, York University (Canada)

Junfei Huang, Chinese University of Hong Kong (China)

Asmerilda Hitaj, Università degli Studi dell'Insubria (Italy)

Katarina Monkova, Technical University of Kosice (Slovakia)

M. Tuncay Gençoğlu, Firat University (Turkey)

Shuming Yang, Xi'an Jiaotong University (China)
