SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Diagnosis and Treatment of Diseases in the Breast and Reproductive System, edited
by Melissa C. Skala, Paul J. Campagnola, Proc. of SPIE Vol. 10043, 1004301
© 2017 SPIE · CCC code: 1605-7422/17/\$18 · doi: 10.1117/12.2268490

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Diagnosis and Treatment of Diseases in the Breast and Reproductive System*, edited by Melissa C. Skala, Paul J. Campagnola, Proceedings of SPIE Vol. 10043 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a seven-digit CID article numbering system in which:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

BREAST CANCER

10043 0F	Improving breast cancer diagnosis by reducing chest wall effect in diffuse optical tomography [10043-13]
----------	-----------------------------------------------------------------------------------------------------------------

DEVELOPMENTAL BIOLOGY

10043 0K	Light-sheet microscopy for quantitative ovarian folliculometry [10043-17]
10043 0L	A dual-modality optical coherence tomography and selective plane illumination microscopy system for mouse embryonic imaging [10043-18]

CARDIOVASCULAR DEVELOPMENTAL BIOLOGY

10043 0Q	Live dynamic analysis of the developing cardiovascular system in mice [10043-23]
----------	-----------------------------------------------------------------------------------------

POSTER SESSION

10043 0X	Density-based clustering analyses to identify heterogeneous cellular sub-populations [10043-30]
10043 0Z	Rare-earth doped nanocomposites enable multiscale targeted short-wave infrared imaging of metastatic breast cancer [10043-39]
10043 10	Optical coherence microscopy with extended focus for <i>in vivo</i> embryonic imaging [10043-31]
10043 11	Brillouin microspectroscopy assessment of tissue differentiation during embryonic development [10043-32]
10043 14	Structured light profilometry for designated breast surface coordinate variation analysis [10043-36]
10043 15	3D mapping of breast surface using digital fringe projection [10043-37]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology
(United States)

R. Rox Anderson, Wellman Center for Photomedicine, Massachusetts
General Hospital (United States) and Harvard School of Medicine
(United States)

Program Track Chair:

Brian Jet-Fei Wong, Beckman Laser Institute and Medical Clinic
(United States)

Conference Chairs

Melissa C. Skala, Morgridge Institute for Research at the University of
Wisconsin, Madison (United States)

Paul J. Campagnola, University of Wisconsin-Madison (United States)

Conference Program Committee

Ji-Xin Cheng, Purdue University (United States)

Darren M. Roblyer, Boston University (United States)

Anita Mahadevan-Jansen, Vanderbilt University (United States)

Bruce J. Tromberg, Beckman Laser Institute and Medical Clinic
(United States)

Session Chairs

- 1 Gynecology
Melissa C. Skala, Morgridge Institute for Research at the University of
Wisconsin, Madison (United States)
- 2 Drug Response and Prognosis
Paul J. Campagnola, University of Wisconsin-Madison (United States)
- 3 Tumor Margin Assessment
Darren M. Roblyer, Boston University (United States)
- 4 Breast Cancer
Anita Mahadevan-Jansen, Vanderbilt University (United States)

- 5 Developmental Biology
Andrew M. Rollins, Case Western Reserve University (United States)
- 6 Cardiovascular Developmental Biology
Michael Andrew Choma, Yale School of Medicine
(United States)
